SUMMARY

Results driven UX/UI Developer with one year of hands-on experience in creating visually appealing and user-centric designs and code. A collaborative team player with a commitment to innovation, I am seeking opportunities to contribute to dynamic projects and drive user engagement.

SKILLS

Vue.js • Javascript • Microsoft SQL Server • ASP.NET Web API • Wireframe mockups • Usability Testing • Prototyping

PROFESSIONAL EXPERIENCE

PMaps, Thane, Maharashtra • JUNIOR UX UI DEVELOPER

07/2023 - Present

PMaps is a service-based company specializing in facilitating companies' recruitment processes by leveraging psychological traits assessment.

- o Spearheaded the development of crucial frontend components for a web application, including the **UI Test Library, Billing Module, and Invite Candidate Module**, seamlessly integrating them with APIs to optimize functionality.
- o Utilized **Figma** to create initial designs, followed by implementation using **Vue.js**, ensuring user-friendly and visually appealing interfaces.
- o Led the redesign of the **company's business website**, enhancing its user interface and overseeing the development process using **Webflow**.

PMaps, Thane, Maharashtra • Web Developer Intern

12/2022 - 07/2023

- o Developed **Test Duration APIs** during the internship to enable efficient scheduling of tests, ensuring candidates' access is neither premature nor delayed.
- o Implemented a **cooling period feature** to monitor candidate attempts and restrict retests within a specified duration, enhancing the integrity of the assessment process.
- o Utilized **Figma** to incorporate user feedback-driven UI modifications, enhancing the overall usability and user experience of the platform.
